General Information about the School Accountability Report Card (SARC)

**SARC Overview**

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at [https://www.cde.ca.gov/ta/ac/sa/](https://www.cde.ca.gov/ta/ac/sa/)

For more information about the LCFF or the LCAP, see the CDE LCFF web page at [https://www.cde.ca.gov/fg/aa/lc/](https://www.cde.ca.gov/fg/aa/lc/)

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

**DataQuest**

DataQuest is an online data tool located on the CDE DataQuest web page at [https://dq.cde.ca.gov/dataquest/](https://dq.cde.ca.gov/dataquest/) that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

**California School Dashboard**

The California School Dashboard (Dashboard) [https://www.caschooldashboard.org/](https://www.caschooldashboard.org/) reflects California’s new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

**Internet Access**

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## 2022-23 School Overview

**District Vision**

All Tahoe Truckee Unified School District scholars will be provided challenging and engaging learning opportunities in order to thrive and to be successful in a globally competitive age. This goal will be accomplished through collaboration with students, parents, staff, and the community, united in dedication to our children’s future. Highly skilled, motivated and caring principals and teachers will engage scholars in effective and innovative instruction through a rigorous and relevant curriculum that promotes mastery of meaningful content, creativity, critical thinking, teamwork, problem solving, respect for diversity, the ability to communicate in multiple languages, and the effective use of technology. A culture of quality, accountability, responsibility, and respect shall characterize the school district.

**Community**

Encompassing more than 720 square miles, Tahoe Truckee Unified School District is located in the Sierra Nevada Mountains, 100 miles northeast of Sacramento, and 35 miles west of Reno, Nevada. The District serves more than 3800 students in California’s Nevada, Placer, and El Dorado Counties. District boundaries stretch from Hobart Mills, eight miles north of Truckee, to Emerald Bay, near South Lake Tahoe; and from Cisco Grove, twenty miles to the west, to Floriston, fifteen miles to the east.

**School Description**

Tahoe Truckee High School is a learning community that offers students a rigorous curriculum through collaborative teaching. Students are encouraged to challenge themselves in their academics and in extra-curricular activities. Our school community is actively involved and supportive of our students’ social and cultural growth as lifelong learners. We believe students at Truckee High School come to school as special human beings, unique in their own physical, social, intellectual, and emotional development. We believe that students have the right to an environment, that encourages student development through rigorous, relevant, and relationship-based learning opportunities. An environment that is safe, clean, and drug-free, celebrates social, emotional, academic, and athletic achievement and where people are treated equally, fairly, respectfully, and courteously. To ensure these rights, students will be encouraged and supported to develop into responsible global citizens so they may reach their full potential, strive to acquire an understanding that learning is a lifelong process, and achieve academic excellence by developing skills necessary to participate successfully in society as responsible citizens with character and integrity. Stand for integrity, honesty, and ethical treatment of all, be partners in the learning process, and take responsibility for themselves and their learning.
THS Vision and Mission
Vision Statement:
Truckee High School will be a safe, healthy, and collaborative educational environment where staff, students, parents, and community contribute to the academic, social/emotional, and physical development of our students. The school will provide a variety of learning opportunities through rigorous coursework and co-curricular activities in a culture of connected relationships. Students will be thoughtful, resilient, productive and contributing members of their communities who take pride in their school. Parents will be engaged, involved, and supporting partners of the school community. The community will partner with THS to support students and offer them life skills to be successful in a changing world.

Mission Statement
The mission of the educational community at Truckee High School is to inspire, prepare and empower students for college, career and a purposeful life.

Climate for Learning
At Truckee High School we value student voice. Opportunities for input are provided through student government, clubs, community service, sports, student assistance programs, and the development of healthy living practices. Students at Truckee High School are guided by specific rules and classroom expectations that promote respect, cooperation, courtesy, and acceptance of others. The school's discipline philosophy promotes a safe school, a warm, friendly classroom environment, and demonstrates that good discipline is a solid foundation on which to build an effective school. Students and teachers worked together to determine THS's core values of respect, responsibility, teamwork, and fun, which serve as the foundation for the school's educational and social climate. School rules are shared with students and parents in the student handbook and are reinforced throughout the year at assemblies, on the school website, in school publications, and through parent-teacher conferences.

School Leadership
School Leadership at Truckee High School is a responsibility shared among district administration, the principal, assistant principals, instructional staff, students, and parents. Staff members are encouraged to participate on various committees that make decisions regarding the priorities and direction of the educational plan. These committees ensure that instructional programs are consistent with students' needs and comply with district goals. Avenues of opportunity include: Coordinated Care Team, Student Study Team, Leadership Team, Safety Committee, English Learner Advisory Committee (ELAC), and School Site Council.

### A. Conditions of Learning  
**State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

# State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

## Statewide Assessments
(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
   - The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

### Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.
### Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 Career Technical Education Programs

CTE Pathways are programs of study aligned with fifteen CTE Industry Sectors identified by California as leading toward high-demand, high-skill, or high-wage careers. CTE Pathway courses are guided by the CTE Model Curriculum Standards, including Career Ready Practice, Content-Specific Knowledge, and Performance Anchor Standards, and include formalized Work-Based Learning and CTE Student Leadership. Students may choose to attend pathways at any district high school. TTUSD offers the following pathways: Engineering Technology, Food Service and Hospitality, Emergency Response, Gone Boarding (a Product Innovation and Design pathway), and Welding. Students participate in engaging learning experiences through hands-on, real-world applications that CTE uniquely provides. A student becomes a CTE Pathway Completer through Work-Based Learning, CTE student leadership participation, and passing two or more 10-credit CTE courses with a C- or better. Completers are honored at graduation with a sash. CTE pathways are represented by a CTE Advisory Committee composed of pathway-related postsecondary representatives, industry partners, parents, and students. The purpose of this committee is to assist educators in establishing, operating, and evaluating pathways programs and to provide industry-related labor market information. For more information, please visit our website at https://www.ttusd.org/Page/136.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.
### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

#### 2022-23 Opportunities for Parental Involvement

Parents and the community are very supportive of the educational programs at Truckee High School and this involvement helps our school thrive. Parents complete the volunteer process to volunteer at Truckee High and are encouraged to participate on the English Learner Advisory Council, School Site Council, Boosters Club, Project Graduation Committee, and T.E.M.P.O. Booster volunteers put on fundraising events and activities to provide additional resources for our students, including enrichment and athletics. THS’ School Site Council revises, adopts, and approves our Parent Improvement Policy, the School Plan for Student Achievement, and the Comprehensive School Safety Plan each year.

The process of engaging all stakeholders is an annual and continuous process. Faculty, staff, and other stakeholder/educational partners are continuously involved in annual site goal/objective setting and data analysis protocols. Through monthly Collaboration Meetings, Leadership and Administrative Meetings, as well as Departmental Professional Learning Communities (PLC), all THS staff are involved in a process of continuous school improvement, using improvement Science Plan Do Study Act (PDSA) cycles, that examine all aspects of the school program and operations in relation to the impact on high-quality student learning. In addition, THS hosts Boosters, ELAC, School Site Council, Student Leadership, parent and student meetings, district-level meetings, and utilizes surveys to engage the community in the school site plan and self-study process. All educational partners are provided with the yearly SPSA which acts as a working document which guides the new year and is aligned to the district’s LCAP, THS site, and teachers’ professional goals. All action ideas are thoroughly reviewed and considered for the SPSA based on alignment to the district and school vision, and the availability of human and financial resources to implement and monitor the suggested plan.

### State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school dropout rates;
- High school graduation rates; and
- Chronic Absenteeism

### C. Engagement

#### State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety
### Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

<table>

The Comprehensive School Safety Plan (CSSP) was most recently revised and approved in April of 2022 by the administration, site staff, Site Council, and Police/Fire Departments. Prior to approval, the CSSP is reviewed and feedback is integrated from THS' ELAC. The Safety Plan is reviewed with all staff members at the beginning of each school year. Key elements of the Safety Plan focus on the following:

- School rules and procedures
- Sexual harassment policy
- Current status of school crime
- Notification to teachers
- Child abuse reporting procedures
- School-wide gender neutral dress code
- Policies related to suspension/expulsion
- Disaster procedures/routine & emergency drills
- Safe ingress & egress of pupils, parents, & school employees
- Healthy Kids Survey Results
- What's Up Wellness
- Policies related to suspension/expulsion
- Disaster procedures/routine & emergency drills
- Safe ingress & egress of pupils, parents, & school employees
- Healthy Kids Survey Results
- What's Up Wellness

The safety of students and staff is a primary concern of Truckee High School. All visitors to the campus must sign in at the office and wear a visitor’s pass at all times. Supervision is provided to ensure the safety of each student before school, during breaks, at lunch, and after school. Supervision is a responsibility shared among support staff, teachers, and the administration. All students are given a copy of the student handbook that includes safety plans. Students and guardians must review them as part of their data confirmation on a yearly basis. TTUSD has adopted ALICE safety protocols for active intruders. All staff and students complete drills and practice the protocols. Guardians are also briefed in ALICE protocols.

Our school community is actively involved and supportive of our students’ social and cultural growth as lifelong learners. We believe students at Truckee High School come to school as special human beings, unique in their own physical, social, intellectual and emotional development. We believe that students have the right to an environment that encourages student development through rigorous, relevant, and relationship based learning opportunities. An environment that is safe, clean and drug free, celebrates social, emotional, academic, and athletic achievement and where people are treated equally, fairly, respectfully and courteously. To ensure these rights, students will be encouraged and supported to develop into responsible global citizens so they may reach their full potential, strive to acquire an understanding that learning is a lifelong process and achieve academic excellence by developing skills necessary to participate successfully in society as responsible citizens with character and integrity.

### 2019-20 Secondary Average Class Size and Class Size Distribution

This table displays the 2019-20 average class size and class size distribution. The columns titled “Number of Classes” indicates how many classes fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

<table>
<thead>
<tr>

</tbody>
</table>

Where there are student course enrollments of at least one student.
Professional Development

There is a systematic approach to continuous improvement through professional development, using Plan Do Study Act cycles, based on student performance data, student needs, and research at Truckee High School. PDSA’s are completed quarterly, by semester, and yearly. Each quarter teachers use student data to choose targeted strategies to support student learning and growth. Each semester Professional Learning Communities (PLC) or department groups select a common challenge to focus their work, study the results, and make decisions based on the outcomes. Yearly, the entire staff selects one site based goal from the site plan to improve outcomes for all students. Teachers complete professional development around specific aspects of site plan as well. For example, literacy strategy learning opportunities are offered to address goal one and two in the site plan. Social emotional learning professional development is provided so all teachers can be advocates for student mental health in the classroom to address goal three. To prepare students for college, career, and a purposeful life, staff participate in professional development around Career Technical Education (CTE) and A-G readiness; this addresses goal four in the site plan. THS ensures that all CTE teachers are highly qualified and are provided specific professional development in their areas of expertise. All teachers are given professional development around A-G readiness so they can better prepare students for life in college. Counselors work with students to help them make informed decisions around their post secondary plan.

This table displays the number of school days dedicated to staff development and continuous improvement.
