ZONAR MyView™

Parent User Guide

The Zonar MyView App allows you to know when and where your student has scanned the card reader on the bus. You must set up account and have received a bus pass to view your student's location. Your student must scan their bus pass on and off the bus for you to receive notifications.

How to setup a MyView account

1. Download the Zonar MyView App from **Google Play Store** or **App Store**.
2. Tap the application on your device to open it.
3. Use one of the methods to sign into the App:
    A. Sign in using a Google account
    B. Sign in using an Apple account
    C. Create a new account using an email address:
        a. Enter your full name and email address.
        b. Enter a password used to access the MyView app.
        c. Tap **Register.**
4. Enter the access code provided by your school. **TAH0405.**
5. Tap **Submit**.
6. Enter your student's information(Student's Full First Name and Last Name Initial, including the student ID provided by the school on *Aeries.*)*

Aeries

*The security of your student information is important. Your school district supplies you with a unique student ID for each individual student. You can get this number on *Aeries* or Contact your school site to help you find that student ID number.

7. Confirm your student's information and click **Done** or **Add another student** to add another student.
8. Notifications must be activated on your phone for the app to send properly when your student has scanned on or off their bus.
9. Click **Save**.

All changes to settings in MyView take effect the following day.

***For the safety of all students, you can only see where your student scanned, not where the bus is located on route.**
